EXPERIENCE

THE EXPERIENCE

Created with ease and convenience in mind, learning is self-paced and online, and accessible when and where it makes the most sense for your employees. They will be encouraged to take the time they need to work through the online modules, workbooks, and videos and attend live coaching calls to receive feedback and guidance on real-time challenges and actively engage in the private and trusted leadership community.

Leaders ascend through 4 different macro phases of growth. The Masterclass breaks down the various components of these phases into modules that your leaders will use as their online textbook. Each instructional module, which is pre-recorded and facilitated by Shelisa B. herself, builds on the one before it. Your associates will take what they learn in each module and apply it real-time in their teams.

There are over 25 videos, roughly 8 hours of instruction, and tactical exercises and actions your leaders will implement and share with their teams.

The 4 Levels of

Leadership Maturity

THEY WILL LEARN HOW TO:

- Lead with confidence
- Build long-lasting trust with their associates
- Boost collaboration and productivity
- Prioritize using Agile principles and practices
- Create an environment where employees have the autonomy and freedom to produce high-value work
- Build relationships at all organizational levels that are mutually rewarding, productive, and long-lasting
- Build a team that feels happy, challenged, and purposeful
- Contribute to the growth of your company with thoughtful, justifiable solutions
- Create a positive cultural environment that is inclusive and offers everyone room for professional growth
- Integrate Agile and Human Centered Design practices into their everyday work
